Market Preview

For the week commencing June 19th, 2023

- This week, we expect bargain-hunting activities to remain prevalent in the market. The positive sentiment is expected to be driven by investors' continued optimism about the corporate performance of companies (particularly in the financial services sector).
- Furthermore, we envisage that investors' optimism in the pro-market posture of the new administration persists and thus we project buying interest on some attractive tickers.
- On the flip side, we do not rule out the possibility of bouts of sell-offs on stocks that have gained appreciably in the prior weeks.
- Overall, we anticipate the overriding sentiment in the market to be positive during the week, howbeit marginally.**
